

MOLINE'S SECTION OF THE ARGUS

KING'S DAUGHTERS SELLING TICKETS

Will Share in Proceeds of Illinois Glee Club Entertainment Dec. 30.

AT THE MOLINE THEATRE

Dance at Rooms of Commercial Club Which Brings Attraction Here, Will Follow the Program.

A share of the proceeds of the entertainment to be given at the Moline theatre the evening of Dec. 30 by the University of Illinois Mandolin and Glee club, under the auspices of the Moline Commercial club, will be turned over to the Silver Cross circle of the King's Daughters. The latter organization will have charge of the sale of tickets, it is announced.

The entertainment committee of the club has endeavored during a number of years to secure the glee club in Moline, but heretofore has met with failure. The entertainment to be put on this year promises to be exceptionally good. It opens with an informal sketch picturing college activities familiar to many people and memories of which are fondly treasured by the club.

Part two comprises several special acts and individual stunts. This portion of the program is similar to the vaudeville and has proven highly popular wherever the club has appeared. A formal concert by the entire mandolin and glee club completes the program.

Dance to Follow.

After the concert dancing will be taken up at the Moline Commercial club and will continue until 2 a. m. An unusually large attendance is expected at the dance and the entertainment committee is making elaborate plans so that everyone will have a good time. The Criterion orchestra will furnish the music.

As the concert occurs during the holiday season, the regular Moline theatre audience will be augmented by the attendance of many young people home from college for the holidays. Numerous requests for boxes for box parties have already been made.

Special attention has been paid to the convenience of the Moline high school students. The entertainment committee has reserved the entire gallery for the high school pupils and tickets to that section will be sold for 25 cents each. The gallery will be decorated with the maroon and white and the committee anticipates that there will be high school yells and songs to mingle with the songs of the collegians.

A number of members of the champion Illinois university football team have berths on the mandolin and glee club and will appear in the concert.

DENIES HE WAS FIGHTING BUT PAYS FINE OF \$4.80

Joe Graczyk of Rock Island was arrested for fighting yesterday afternoon and while he denied the charge he plead guilty to disorderly conduct and paid a fine of \$4.80. Joe came to Moline to visit his brother Frank and the police charge that the two became involved in a fist encounter. Both denied it, however, though Frank was the one who called the police. In police court today Frank said Joe merely fell down and he had tried to assist him to his feet. Joe had a black eye which was regarded as reasonably strong evidence that there had been some sort of rough work.

London, Dec. 3.—Sir John Henry Crichton, grand master of the Orangemen in Ireland, is dead.

German Howitzer Plays Havoc With the Allied Armies

Photograph shows the German 21-centimeter howitzer, which fires the 245-pound shell whose explosion the British soldiers call "Black Maria," "Jack Johnson" or "Coal-box." The range is 8,900 yards. The wheels, it will be noted, are surrounded by girdles of linked plates of steel, faced with wood. Two firing-mats—two thicknesses of cane with steel plates between them—have been laid on the ground for the wheels to rest on, and the detachments are seen hauling the howitzer onto those mats. They have got a wheel-purchase on the wheels, with drag-ropes. Both mats and "caterpillar" wheels are, of course, to prevent the gun sinking in soft ground. "Black Maria" may be called a half-sister of "Busy Bertha," "Busy Bertha" is the name given to the Krupp 42-centimeter gun, and this nickname is derived from the Christian name of Frau Krupp von Bohlen. That they are happy, if grimly, if conceived and unflattering names may be admitted.

WATER SHUT OFF; NEAR EXPLOSION

Action of Plumbers Taken Without Serving Notice Almost Causes Accident.

BOILER IS COOLED IN TIME

Manufacturers' Hotel and Business Houses on Sixteenth Street Inconvenienced.

Failure to notify water users before the flow in the main on Sixteenth street was cut off almost caused a serious accident yesterday afternoon. A great deal of inconvenience also resulted.

The Lockhart Heating & Plumbing company has been engaged in repairing some of the hydrants about the city. Work has been done in the residence sections without shutting off the water, but when operations were begun yesterday afternoon at a hydrant at the corner of Second avenue and Sixteenth street it was found necessary to cut off the main, and this was done without notifying the users of water on the street, and without even consulting the head of the water department.

At the electric laundry, 1614 Fourth avenue, there is a big boiler used for heating and power. Some time after the water had been shut off someone happened to notice that there was only half an inch of water in the boiler. A big fire had just been put in and there was imminent danger of an explosion.

Before an investigation of the cause of the difficulty had been concluded the boiler was becoming red hot and the peril was greatly increased. Finally a pump in the yard was connected and enough water injected to avert danger, the fire being drawn at the same time.

A number of business houses on or near Sixteenth street suffered inconvenience and the Manufacturers' hotel experienced some difficulty.

Orders have been issued by the head of the water works prohibiting shutting off of water without due notice to all those who will be affected.

Keneth Ehl, who did such valiant work as yell-master, was rewarded by presentation with an "M."

Strict Regulations Enforced as Result of Hoof and Mouth Disease.

Word from Erie today brings news that Whiteside county has been placed under quarantine on account of the hoof and mouth disease. Heretofore only certain parts of the county were affected. Spread of infection, however, has made it necessary to widen the scope of the order.

Sale and shipment of livestock will be prohibited, there will be no moving of stock from one farm to another, trespassing will be under the ban, and hunting absolutely forbidden while the quarantine is in force.

A good many herds of cattle have been afflicted with the disease in the county, and quite a number of animals already have been killed as a result.

NO CORPORATION CAN BUILD HOMES

Hope of Moline for Relief from Housing Problem Hit by Decision.

TO URGE REPEAL OF LAW

Ruling of United States Supreme Court Does Not, However, Affect Browning Field.

Moline is affected by the ruling of the United States supreme court in refusing to take jurisdiction in a case involving the right of corporations to hold and deal in real estate in Illinois, thereby definitely settling the point against the corporations. This city's need of houses makes it an interested party.

For a number of years, while this community has been undergoing rapid industrial development, there has been a great scarcity of living quarters for workers needed by the factories. Individual enterprise seemed unable to cope with the situation, and it was felt that the best plan would be to organize a large corporation to go into the home building business on a large scale. The Greater Moline committee investigated the matter, but decided that under the law such an undertaking would be out of the question. It therefore is bending its efforts, in cooperation with other organizations, to secure the repeal of the law.

Some have argued that this law would prevent the city from developing Browning field as an athletic park to which admission could be charged, but it has been shown that the city is not regarded as a corporation in the sense meant under this act. Besides, the municipality does not own the land.

Hit at Pullman Company.

Discussing the ruling of the supreme court Harry A. Jansen, president of the Greater Moline committee and secretary of the Tri-City Manufacturers' association, said:

"The manufacturers did not anticipate a favorable ruling for they have long realized that the law stood directly in the path of the corporations in the matter of owning real estate. The law was passed after the Pullman strike in 1893 and was a political measure aimed at the Pullman company. It has been a great detriment to the state. Moline has suffered because of it and communities throughout the whole state have suffered in a similar manner. There remains only one thing to do—to have the state legislature repeal the law and pass a new one that will grant the desired right to corporations."

"The matter was discussed by the Greater Moline committee some time ago and I believe plans were made to cooperate with organizations in various parts of the state to bring about the repeal of the law. Just how far the movement has gone, I do not know at present."

CONTAGIOUS DISEASES IN CITY ARE NOT NUMEROUS

Moline is now relatively free from contagious diseases, according to the report of the city physician, Dr. Perry Wessel. Typhoid fever is most common of the list of serious ailments. There is no smallpox and no scarlet fever and the cases of whooping cough and measles are unusually few.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble. Harper House pharmacy.—(Adv.)
